

rev::ProcessQueue

```
classDiagram
    rev::ProcessManager --|> rev::ProcessQueue
    rev::ProcessThread --|> rev::ProcessQueue
```

A UML class diagram showing inheritance. At the top is a box labeled 'rev::ProcessQueue'. Below it are two boxes: 'rev::ProcessManager' on the left and 'rev::ProcessThread' on the right. A horizontal line connects the two bottom boxes, with a vertical line extending upwards from its center to the bottom of the 'rev::ProcessQueue' box. An arrow points from this vertical line up to the 'rev::ProcessQueue' box, indicating that both 'rev::ProcessManager' and 'rev::ProcessThread' inherit from 'rev::ProcessQueue'.

rev::ProcessManager
